2nd meeting

on cutting edge advancements
in our fight against cancer
science as a symbol of resilience
of a town and a community

24th-25th October 2024

Università degli Studi dell'Aquila
Centro Congressi "Luigi Zordan"
Piazza San Basilio 3 - L'Aquila

Responsabile Scientifico
Prof. Luciano Mutti

overview

This second meeting will be held on 24/25 October 2024 in L' Aquila and will represent our sustained efforts to attract bright minds, ideas and projects.

Therefore the aim of the meeting will be gathering a group of world-class scientists that thanks to lectures and open audience panels will offer a unique opportunity of presentation of high quality science along with creating a chance of fruitful networking.

“Trail-blazing” is the word for future of cancer research should be imbued with to inform the clinical community and improve cancer prognosis.

Therefore, on this premise, all the meeting is designed for leaving the floor to game-changer preclinical and clinical scientists showing how the integration of these two approaches can be of mutual benefit for cancer patients.

The topics are of particular interest to MD, preclinical and clinical scientists.

SCIENTIFIC PROGRAM

24th October

09.00 Registration Opens

09.20 Greetings L. Mutti

A glimpse at current precision oncology

1st PART

Moderators: N. D'Ostilio, M. Di Perna, P.S. Tagliaferri, N. Tinari

09.30 Lung Cancer - Targeted Therapy for CNS metastatic NSCL: new data
C. Zannori

09.50 Genito-Urinary Cancer - What 's the real impact of PARPi on Metastatic Castration Resistant Prostate Cancer
E. Francini

10.10 Non-melanoma skin cancer
C. Caponio

10.30 Medical treatments for metastatic melanoma: state of the art and heads up
M. Tudini

10.50 Audience panel / discussion

11.00 Coffee Break

Pitfalls and future impact of targeted therapies

1st PART

Moderators: G. Beretta, AR. Mackay, C. Porta

11.20 How do Cyclin inhibitors benefit breast cancer patients? Reality check
L. Verna

11.40 The alternative TrkAIII splice variant as a potential actionable equivalent to NTRK1/TrkA-fused oncogenes in cancer
AR. Mackay

12.00 The future of TKI-targeted treatment
S. Gray

12.20 Cancer associated thrombosis and target therapy
G. Vercillo

12.40 Audience Panel/ discussion

13.00 Lunch

Pitfalls and future impact of targeted therapies

2nd PART

Moderators: R. Del Pinto, G.L. Gravina

14.00 Combined Therapies in the adjuvant and neo-adjuvant settings: a closer look at HER2+ breast Cancer
T. Sidoni

14.20 Advanced Renal Cell Carcinoma: what's new?
C. Porta

14.40 Immunotherapy and new drugs for GI tumours
O. Venditti

15.00 Steps forward for endometrial cancer
O. Martelli

15.20 New perspectives of hormone therapy for early and advanced prostate cancer
E. Francini

15.40 Audience panel/ discussion

16.00 The Financial Burden of the new cancer drugs: are they worth the cost? Chaired and Presented
E. Liberatore, T. Meirson

25th October

Cancer Biology Facts and Fads: where are we at?

Moderators: F. Brancati, A. Cimini, P. Pinton

08.40 Epigenetics: the little brother?
R. Silvestri

09.00 New strategies of immunotherapies for human tumours
S. Biffo

09.20 Tumour cells mitochondria as a target for treatment

M. Campanella

09.40 Inflammation and cancer: a key master for therapy?
C. Giorgi

10.00 Audience panel/ discussion
S. Delle Monache, L. Mutti

10.20 Coffee Break

A glimpse at current precision oncology

2nd PART

Moderators: P. Marchetti, L. Mutti

10.40 NGS in clinical oncology: conundrum or Key master
P. Marchetti

11.00 A.I in Clinical oncology
M. Capulli

11.20 A.I. and biomedical research
F. Mignosi

11.40 Audience panel/ discussion

New Technologies for Cancer Research

Moderators: S. Biffo, P. Pinton

12.00 New cells models
S. Oliveto

12.20 Spatial Biology
L. Moro

12.40 Audience panel/ discussion

From Environment to Genetics

Chairs: S. Delle Monache, L. Mutti

Spotlight Speakers:

13.00 M. Carbone

13.30 A. Giordano

14.00 Closing L. Mutti
